Boiling water at its most convenient

Ultimate convenience | True 100°C boiling water | Easy Installation | Safety assured | Quick sterilizing – perfect for babies' bottles | Hygienic cleaning | Faster cooking and preparation

Save energy

The energy use of a boiling water tank is on average 10p/day which is comparable to a light bulb. The average cost to boil a kettle is 2.5p.

No waiting time for hot water | No waste of water or energy | No energy surge caused by the use of a kettle

Quick and flawless installation with the M-Box

The Franke M-Box guarantees a quick and flawless installation | Installation within 20 minutes | Tidies pipework | Installation possible in horizontal or vertical position | Easy access to change filter | Fits to cabinet wall

The Minerva Mondial 3-in-1 tap provides hot, cold and 100°C boiling water. Safety is assured with a two-step safety handle, while fully insulated spout and handle ensures that they both stay cool to the touch. Discreet and suitable for almost any kitchen, the horizontal heating tank sits neatly behind a standard 150mm cabinet plinth, freeing up much-needed cupboard space.

IMPORTANT

Please be aware of your water pressure before purchase. If your water pressure is too low, the installation of a pump should be investigated. If your pressure is too high, the inclusion of a pressure reducing valve (not supplied) in the system will be necessary.
